CREATIVE STRATEGIST & VIDEO PRODUCER

FROM THE PORTFOLIO · BRAND · CAMPAIGNS · EDITORIAL · DIGITAL

// 001

— ABOUT ME

I turn ambitious ideas into clear, expressive, and culturally relevant creative work. A creative strategist and video producer trained as an architect, I build visual systems that feel as bold as the ideas behind them, and work just as hard. I script, shoot, and edit from my own studio, so an idea goes from brief to finished piece without the handoffs.

— WHAT I DO

- 01 **Brand identity & strategy.** Positioning, voice, and visual direction that give a brand something distinct to say and a system to say it with.
- 02 **Campaigns.** Campaignable concepts that travel across video, social, digital, and print, backed by the channel and performance know-how of a working marketer.
- 03 **Video production.** Scripting, storyboarding, filming, directing talent, editing, and sound, from a full home studio with the lighting and equipment to turn lessons and ads around fast.
- 04 **Editorial & education.** Training videos, tutorials, and short-form content that explain complicated things in plain language.
- 05 **Sound.** Music producer, audio engineer, and multi-instrumentalist, so tone of voice and brand sound are part of the idea from the start.
